

SMALL CALIBER / MEDIUM CALIBER

The right supply.
A clear path forward.

Ammunition sourcing and program coordination for defense, security and training requirements.

KNOWLEDGE. RELATIONSHIPS. OPPORTUNITY.

SMALL CALIBER

A broad portfolio.
A defined requirement.

From pistol and carbine families to precision and heavy-caliber inquiries, NAE connects your requirement with relevant supply resources.

9 x 19 mm	5.56 x 45 mm	.300 Blackout	7.62 x 51 mm	12.7 x 99 mm
FMJ / 124 gr	Ball / 62 gr	FMJ / 123 gr	Ball / 144 gr	Ball / 656 gr

Photographed variants identified above. Images are not to scale.

Pistol calibers

9 x 19 mm | .38 | .45 | 10 mm
Service, security and training inquiries.

Rifle & carbine

5.56 x 45 mm / .223 Rem | .300 Blackout
Defined configuration and specification.

7.62 mm & precision

7.62 x 39 mm | 7.62 x 51 mm / .308 Win
7.62 x 54 mm | Match and precision options.

12.7 mm families

12.7 x 99 mm | 12.7 x 108 mm
Platform-specific configurations.

Tell us the caliber, designation and quantity. NAE will coordinate supplier review against your documentation and delivery needs.

MEDIUM CALIBER

More choice.
Clearer specification.

Training and operational configurations, organized by caliber family for a focused inquiry.

Variant, qualification and availability are confirmed for each inquiry. Product photographs are representative and are not shown to scale.

CONFIGURATIONS & TECHNOLOGIES

Beyond the caliber. Specify the configuration.

A complete inquiry identifies the intended variant as well as the caliber. Options vary by family and supplier.

7.62 Ball .308 Match

Ball & precision

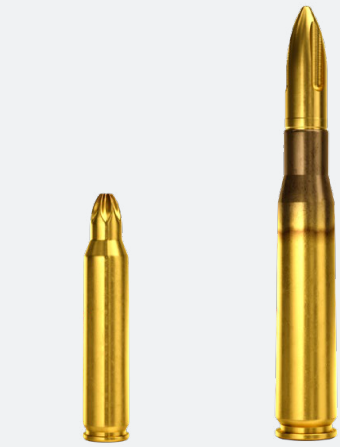

Ball, match and sniper configurations.

5.56 Tracer 7.62 IR-T

Tracer technologies

Tracer and infrared tracer inquiries.

5.56 Blank 12.7 RR Ball

Training options

Blank and reduced-range configurations.

ADDITIONAL CONFIGURATION INQUIRIES

Improved performance
AP / API / API-T
Medium-caliber training and operational variants

AP: armor-piercing | API: armor-piercing incendiary | API-T: API tracer

Images illustrate selected configurations; the exact specification governs the supplier review.

WHY ENGAGE NAE

Less uncertainty. Better-defined offers.

A product list starts the conversation. A coordinated requirement helps move it forward.

01 Define the requirement

Bring caliber, configuration, quantity and delivery priorities into one clear brief.

A sound basis for supplier review.

02 Review the source

Coordinate specification, qualification and documentation questions with the proposed resources.

Open questions identified early.

03 Compare the offer

Align scope, price assumptions, packaging, inspection and delivery milestones.

A clearer basis for your decision.

04 Keep the program moving

Track documentation, logistics planning and responsibilities between customer and supplier.

Agreed actions and milestones.

YOUR NEXT REQUIREMENT

Start with NAE.

Share your requirement. We will help define the scope, coordinate supplier discussions and clarify the next steps.

Product & quantity

Caliber, designation and required quantity

Technical expectations

Specification, acceptance and documentation needs

Delivery priorities

End user, destination and target delivery dates
