NAE-DEFENSE
NORTH AMERICAN EAGLE LLC

CORPORATE CAPABILITIES & STRATEGIC CONSULTING

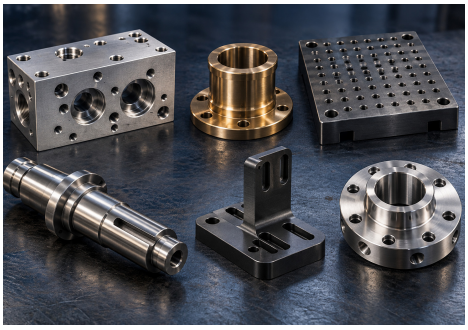

Creating opportunities. Connecting capabilities. Positioning clients to win.

Defense supply. Industrial capability.
Market access. National localization.

ONE RELATIONSHIP / A WIDER CAPABILITY

A clear requirement. The right resources.

NAE brings market knowledge, technical understanding and strategic relationships together to help defense customers and suppliers move forward.

01 **STRATEGIC CONSULTING**

Market priorities, customer positioning and a practical engagement plan.

02 **TECHNICAL SOURCING**

Parts, NSNs and quotations organized around the customer requirement.

03 **ENGINEERING & PRODUCTION**

American engineering and Turkish manufacturing resources aligned to the work.

04 **SUSTAINMENT & MRO**

Spares, repairs, overhaul options and coordinated provider handoffs.

05 **MARKET ENTRY & LOCALIZATION**

Partner alignment and phased plans for regional and national capability.

06 **DLA OPPORTUNITY SUPPORT**

Solicitation review, sourcing fit and quotation preparation.

STRATEGIC CONSULTING / BUSINESS DEVELOPMENT

Know where to compete. Know how to advance.

MARKET INTELLIGENCE

Assess GCC and other underserved markets, customer demand and commercial fit. Prioritize opportunities that suit your capabilities.

CLIENT POSITIONING

Build your value proposition, identify regional partners and prepare customer engagement and market-entry plans.

WHAT YOUR TEAM RECEIVES

A market and opportunity brief. A stakeholder and partner shortlist.
An engagement plan with meeting objectives, responsibilities and next steps.

DLA OPPORTUNITY SUPPORT / TECHNICAL SOURCING

From NSN to an informed bid decision.

Turn a solicitation and supplier quote into a clear view of technical fit, delivery feasibility and commercial position.

READ. ASSESS. PREPARE.

SOLICITATION REVIEW

Quantity, delivery, packaging, inspection, first article and sourcing obligations.

SOURCE & DATA FIT

Supplier capability, drawing availability, origin, traceability and access requirements.

COMMERCIAL REVIEW

Supplier costs, freight, lead times and available award history.

FOR DEFENSE SUPPLIERS

Organize the requirements, resolve supplier questions and prepare a responsive offer.

FOR DEFENSE CUSTOMERS

Compare supply options for difficult parts and recurring requirements: scope, price, lead time and documentation.

YOUR DELIVERABLES
RFQ requirements summary / Bid and sourcing assessment / Quotation support package

ENGINEERING / PRECISION MANUFACTURING

American engineering. Turkish production.

ENGINEERING SUPPORT

Build-to-print review, authorized reverse engineering, models, manufacturability, tooling and inspection planning.

PRODUCTION RESOURCES

CNC milling and turning, EDM, fabrication and finishing coordination for brackets, housings, shafts, sleeves and flanges.

Align drawing revision, materials and acceptance criteria before production. Coordinate CMM results, first article evidence, conformity records and lot traceability for the agreed scope.

GROUND SYSTEMS / NATIONAL LOCALIZATION

Build capability inside your country.

NAE brings American and Turkish engineering teams, assembly teams and manufacturing resources together for national armored vehicle production and support.

4x4 & 6x6 PROGRAMS

Requirements definition, platform evaluation, prototype coordination, facility and tooling planning, workforce training and phased local workshare.

SUSTAIN THE FLEET

Ground-system spares, repair, modernization, integration and test coordination.

ALIGN THE PROTECTION

Vehicle protection requirements and specialist transparent-armor options, including one-way return-fire glazing for technical evaluation.

AEROSPACE / SUSTAINMENT & MRO

Keep the program moving forward.

AIRCRAFT SPARES

Source component and hardware requirements with the specified condition, origin and traceability.

REPAIR & OVERHAUL

Coordinate provider options, proposed work scope, records, turnaround assumptions and repair logistics.

TOOLING & GROUND SUPPORT

Connect requirements for maintenance tooling, platforms, cradles, stands and ground support equipment.

PROGRAM COORDINATION

Support urgent sourcing, progress reporting, expediting, packaging, crating and kitting.

AMMUNITION / SUPPLY PROGRAM SUPPORT

Specialized products. Defined requirements.

Connect defense, security and training needs with relevant supply resources and a clear technical and commercial scope.

9 x 19 mm | **5.56 x 45 mm** | **.300 BLK** | **7.62 x 51 mm** | **12.7 x 99 mm**

20 x 102 mm | **30 x 113 mm** | **40 x 53 mm**

SMALL & MEDIUM CALIBER

Pistol, rifle and heavy-caliber families, including .38, .45 and 10 mm inquiries. Medium calibers are matched to the specified platform and configuration.

QUALITY & CONFIGURATION

Confirm the exact designation, qualification evidence, compatibility and acceptance requirements for each inquiry.

PROGRAM COORDINATION

Supplier qualification evidence, quantities, schedules, packaging, logistics and authorized end-use documentation.

UNMANNED SYSTEMS / COMPONENTS & INTEGRATION

Connect the platform. Support the program.

TRAINING & TARGET SYSTEMS

Coordinate target UAS and training-system discussions around the intended role, operating environment and program scope.

COMPONENTS & INTEGRATION

Identify relevant motors, supporting components and technical resources for customer-defined integration and sustainment needs.

Begin with the use case, configuration, quantities and support requirements. NAE organizes the provider discussion and information needed for evaluation.

MARITIME / MISSION CONFIGURATION

Define the mission. Shape the platform.

M46 MARITIME PROGRAMS

Patrol, surveillance, security, search and rescue, and maritime support. Align propulsion, crew spaces and mission equipment with the operating need.

YOUR CONFIGURATION

NAE coordinates requirements, configuration review, supplier engagement, documentation and delivery planning for the selected vessel.

PROGRAM EXECUTION / QUALITY & LOGISTICS

The details drive the outcome.

REQUIREMENTS & TECHNICAL EXCHANGE

INSPECTION & DOCUMENTATION

PRODUCTION & PROGRAM COORDINATION

PACKAGING & DELIVERY HANDOFFS

01
IDENTIFY

Define the need.

02
ALIGN

Match resources.

03
POSITION

Agree the approach.

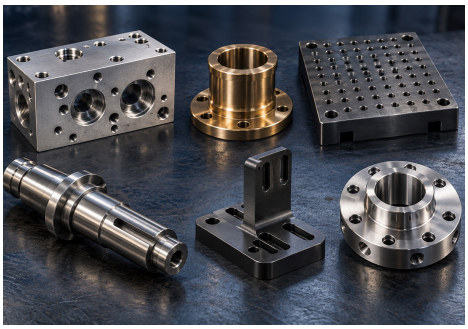

04
ADVANCE

Coordinate next steps.

WORK WITH NAE / YOUR NEXT STEP

Bring the requirement. Let's define the path.

A market objective, a supply challenge or a localization program: begin with the decision your team needs to make.

MARKET OBJECTIVE

Your capabilities, target customers and growth priorities.

SUPPLY REQUIREMENT

Part or NSN, quantity, condition, documentation and delivery date.

NATIONAL PROGRAM

Operating need, industrial objectives, scope and timeline.
